

Kaushani Sen

Full-Stack Web Developer

✉ senkaushani6@gmail.com ☎ 8697397881 📍 Kolkata, India 🔗 LinkedIn 🏠 GitHub

🎓 EDUCATION

Techno India University, Bachelor in Computer Science Engineering 09/2022 – 09/2026
Kolkata, India

St. Jude's High School, Higher Secondary (Class 12), ISC board
Madhyamgram, India

🛠 SKILLS

Frontend - HTML, CSS, ReactJS, TailWindCSS, ChakraUI
Backend - Node.js, Express.js
Languages - C, C++, JavaScript, Python
Libraries - React Router, NumPy, Pandas, Matplotlib, Kaggle
Tools - VSCode, Git, npm, Vite
Cloud - FireBase
Database - SQL, MongoDB

💼 PROFESSIONAL EXPERIENCE

Brinavv Technologies Private Limited | Software Engineering Intern

- Engineered scalable School ERP Fee Management System using MERN stack with Redux Toolkit and JWT-based role authentication supporting Admin, Student, and Faculty roles
- Optimized MongoDB database through strategic indexing and aggregation pipelines reducing API response time by 45% and improving payment processing throughput by 30%
- Implemented Mongoose transactions ensuring data consistency during concurrent operations; conducted code reviews using Git workflows

Outlier AI | Freelancer

- Freelanced with Outlier AI on AI training and evaluation projects involving coding, testing and model analysis.
- Assisted in testing model outputs and enhancing overall system reliability.

🧩 PROJECT EXPERIENCE

Google Solution Challenges Hackathon 🏆

AidAlert | Frontend Developer

- Developed complete front-end of a responsive web application using **React** and **ChakraUI**.
- Designed clean **UI/UX** and component-based architecture.
- Deployed via **vercel** with automated **CI/CD**

Smart India Hackathon 🏆

Medimitra | Full-stack developer

- Built multi-role healthcare platform using **Next.js**, **React.js**, **Node.js**, **Express.js**, and **AWS RDS PostgreSQL** with **AI voice** symptom checker (English/Hindi/Punjabi), **WebRTC** video consultations, and **Socket.io** 🏆 for real-time communication.
- Developed native Android app using Capacitor, integrated **Google Maps API** for pharmacy location, Cloudinary for file storage, and deployed Dockerized backend on **AWS EC2** with role-based authentication.
- Built **AI/ML symptom analysis** model using **Python** and **FastAPI** in separate **Dockerized container** implemented prescription management, live medicine stock tracking, and offline capabilities.

🧩 DEVELOPMENT EXPERIENCE

PingPop 🏆

07/2025 – 08/2025

Real-time chat application | Full-Stack Dev

Developed a real-time chat application, leveraging **React** and **Firebase**.

- Implemented **user authentication**, **profile picture updates**, and **secure text/image messaging**.
- Designed a **custom desktop-focused UI** with real-time database and cloud storage integration.

TaskFlow 🏆

Responsive task management app | Frontend dev

- Developed a responsive Task Management UI using **React**, **React Router**, and **Axios**.
- Implemented authentication flows, protected routes, and project/task **CRUD features**.
- Built modern, responsive design with **TailwindCSS**, **React Hooks**, and **React Icons**.

📜 CERTIFICATES/ASSESSMENTS

Hack2Skill Google Solution Challenges 🏆

- Selected in **Top 105** teams among **16,000+** teams

React JS Assessment 🏆

- Completed **ReactJS** assessment

iCAT Certification 🏆

- Participated in internship common aptitude test
